README for

Can Incorrect Beliefs about the Racial Composition of Welfare and Unemployment Insurance Beneficiaries be Changed?

1 Overview

The code in this replication package constructs the analysis contained in the manuscript "Can Incorrect Beliefs about the Racial Composition of Welfare and Unemployment Insurance Beneficiaries be Changed?". The data used in the analysis are the results of a novel experiment conducted on the Connect Platform run by Cloud Research during 2024 by Jeffrey Carpenter, Jakina Debnam Guzman, Peter Hans Matthews, and Erin L. Wolcott. The replicator should expect the code to run within three minutes.

2 Data Availability and Provenance Statement

Data reported is from two parallel, three-stage experiments conducted by the authors on the Connect Platform run by Cloud Research between June and August of 2024. Participants are U.S. adults - 3,029 participants in Stage 1; 2,834 participants in Stage 2; and 2,324 participants in Stage 3. Below are selected participant summary statistics:

Table 1: Participant characteristics.

	CPS	*Stage* 1		*Stage* 2		*Stage* 3	
		Mean	S.D.	Mean	S.D.	Mean	S.D.
Age (18 - 64)	0.774	0.890	0.313	0.890	0.313	0.870	0.336
Female	0.505	0.511	0.500	0.512	0.500	0.516	0.500
White	0.753	0.717	0.450	0.719	0.450	0.740	0.439
Black	0.137	0.126	0.332	0.125	0.330	0.103	0.304
Observations	-	3029		2834		2324	

Notes: The Census age categories reflect that fact that participants must be at least 18.

To review the complete set of experimental screenshots and instructions, please see "Carpenter_et_al_2025_Papers_and_Proceedings_Experimental_instructions_appendix.pdf" (also contained in this replication package)

3 Computational Requirements

The analysis reported in this paper was computed using StataSE 18 (64-bit)

4 Instructions to Replicators

1. Save the file "Carpenter_et_al_2025_Papers_and_Proceedings.dta", noting the file path
2. Open the file "Carpenter_et_al_2025_Papers_and_Proceedings.do" using Stata
3. On line 17 of the code, replace the text "– ADD PATH –" with the file path corresponding to the location of "Carpenter_et_al_2025_Papers_and_Proceedings.dta" you designated
4. Execute the .do file within Stata
